

Don't Let The Watchman Sleep

The liver is the watchman of the body. So long as it keeps actively at work, there is little danger from bilious attacks or other disorders that follow a torpid liver. Don't let it lag—don't let it go to sleep.

Beecham's Pills

the best remedy ever discovered for keeping the bile regulated. There is no other medicine like them for muddy complexion, dull eyes, constipation, stomach troubles, sick headache, dizziness and general debility. Beecham's Pills promptly carry all poisonous matter from the system, act quickly on the bile and are a grand old remedy to

DULL, DREARY DAY FORERUNNER OF XMAS

However, the Spirit of the Time Pervades the Entire Rocky Mountain Region.

Dull, dreary and uncomfortable was Monday. Clouds and smoke made the sky dark and a fog settled over the city, making the evening more disagreeable than the day had been. The Christmas spirit pervaded the whole business section of the city, however, and no one seemed to give attention to the murky and disagreeable day.

High barometric pressure extended over the entire Rocky Mountain region and a heavy storm played its fury in central Ohio. Throughout the West, a cloudy sky threatened rain such as fell early Monday morning, but nothing came of it and no one bent on Christmas shopping let the weather interfere.

TAKES LEGAL MIXUP UNDER ADVISEMENT

The case of the State ex rel P. W. and W. L. Gallagher against Judge M. L. Ritchie and John Wood, respondents, was taken up in the supreme court on Monday, the matter being an application for a writ of mandamus to compel Judge Ritchie to reinstate and hear the case of the Gallaghers against Wood. The matter came before Judge Ritchie upon an appeal, and he dismissed both the appeal and the case. It appeared that Wood was served with a summons three years after the suit had been filed against him at Murray; also that after he was served the justice at Murray granted him a change of venue, upon the condition that the costs be paid. The costs were not paid, and judgment was entered against Wood. He then appealed, and Judge Ritchie held that the Murray justice did not have jurisdiction of the case, in the first place, and that he had no right to enter judgment in any event after the granting of the change of venue.

It was to force Judge Ritchie to reverse himself that the application for the writ of mandamus was made. At the conclusion of the hearing the supreme court took the matter under advisement.

CHOICE FOR RECEIVER OF GREEN RIVER BANK

Doren Perrine of Green River has been agreed upon by State Bank examiner Glazier and the majority of the depositors and stockholders of the Green River State bank, as receiver of that institution. This information was telegraphed to Secretary of State Tinney by Mr. Glazier on Monday. The application for the appointment of Mr. Perrine as receiver will come before Judge Erickson at Mount Pleasant today.

TO COMPEL INVENTOR TO KEEP AGREEMENT

Joseph P. Megenth has filed an action against Charles W. Leiser in the Third District court, to enforce the specific performance of a contract. Megenth alleges that he furnished the money to patent a device owned by Leiser, known as a telegraph transmitter, and that Leiser agreed to give him a one-fourth interest in the invention. Now alleging that Leiser has refused to live up to his agreement, Megenth asks that he be compelled to do so.

Presents to Employees.
The Salt Lake City branch of the Crane Company made its customary Christmas presentation to employees, giving each one 10 per cent of his annual salary. The distribution was made by Local Manager William Bowen, under instructions from R. T. Crane, president of the company.

New Press Law for China.
PEKING, Dec. 23.—The throne has issued orders to the Ministry of the Interior and the Ministry of Justice to frame a new press law for China, to replace the existing regulations. This action is due to the great growth of public meetings in the empire, the use of reclamations and the agitation for "rights to recovery," due to newspaper publicity.

Many Strikers Return.
SANTIAGO, Chile, Dec. 23.—The strike movement in the nitrate field, which for a time tied up the business of the country, is breaking. Several thousand men returned to work today.

Not to know what happened before one was born is to remain always a child, for what were the life of man did we not combine present events with the recollections of past ages? One of the great historians wrote that history has three functions. First, teaching the lessons of political wisdom; second, spreading the knowledge of past ideas and of great men; third, causing us in moments of divine solitude to feel the poetry of time. History calculates the orbits of the stars and shows us a connected story with an all pervading law.

The History of Nations

HENRY CABOT LODGE, Ph. D., LL. D.
Editor-in-Chief.
Complete in Twenty-Four Volumes.

A FEW REASONS WHY THE LODGE HISTORY OF NATIONS IS THE GREATEST WORLD-HISTORY EVER WRITTEN.

1. It is the first and only great American History of the World for Americans by Americans.
2. It is the only History of the World written (NOT COMPILED) by modern historians of the highest authority.
3. It is the only comprehensive world-history which gives a concise yet brilliant history of each nation complete in a volume.
4. It is the one up-to-date History of the World and contains the practical results of the most recent research.
5. It is the only well-proportioned world-history (FILLING IN ALL "GAPS"), masterly in style, impartial in treatment, yet fascinating as a romance, adapted to the needs of the whole family.
6. Because the text throughout is wonderfully supplemented, pictorially, by superb illustrations, diagrammatically by real historical maps, which facts, coupled with the individual volume indexes and bibliographical reading guides, make the work unique.

IMPORTANT SPECIAL FEATURES.

INDEXES—In other world histories the index is usually in the back of the last volume or in a separate volume; in either case, a very inconvenient place. Each volume of THE HISTORY OF NATIONS contains its own comprehensive index, with the necessary criticism of the elaborate UNITED STATES HISTORY index, which is placed at the end of that history. The indexing has been done by the well-known experts, J. Ellis Burdick, C. Williams and a staff of trained assistants.

BIBLIOGRAPHIES—Preceding the index at the back of each volume is a critical bibliography, carefully prepared by the editor. This is not a mere list of titles, but a scholarly resume of all important works relating to the subject of the volume. To aid the student desirous of acquiring extensive knowledge of any nation or subject, these critical bibliographies are classified according to general and special works on each nation, thus forming a complete guide to the historical literature of the world, covering hundreds of histories. It should be noted that these critical comments have been made by well-known professors of history.

MAPS—The student of history, whether in a grammar school or university, knows that real HISTORICAL MAPS are absolutely necessary in acquiring correct ideas of history.

THE HISTORY OF NATIONS contains nearly three hundred historical maps, accurately drawn by hand under the supervision of the historians themselves and reproduced in the text page just where they belong.

ILLUSTRATIONS—For five years MR. OTTO REICH of New York has had charge of the illustrating of the history, subject to the approval of the editors. The total number of illustrations is about five hundred, including photographs, color plates and half-tones, all of which are full page.

Mr. Reich has had the valuable assistance of his brother, Dr. Emil Reich, the eminent historian, in securing for the work reproductions of the most famous historical paintings in the galleries of Europe. It is of interest to note that the originals of these illustrations in THE HISTORY OF NATIONS are valued at many thousands of dollars.

THE BOOKMAKING.

The style of type, size of type page and margins were decided according to the best authorities and were finally approved by MELVIL DEWEY, LL. D., State Director of Libraries, New York. Having produced an ideal type page, we have secured the highest class of press work, including careful make-ready, clear, uniform impressions and brilliant black ink. Inks have been specially prepared for the color plates, maps, half-tones and photographs to bring out the detail and perfection of the originals.

All illustrations are printed on plate paper made expressly for the purpose. The size of the volumes, 8 1/2 inches by 11 inches, is convenient and appropriate to the contents.

THE PAPER used in this work is distinctly beautiful and of substantial quality, which will withstand the test of time and constant use. It is pure white and of light weight, made to order, and every page bears the special crest water-mark of THE HISTORY OF NATIONS.

THREE BINDINGS—BROWN DE LUXE CLOTH, silk-ribbed finish, dark green leather title, gold stamping, silk head and foot bands, gold top, smooth trimmed from art bottom edges, emblematic inside cover linings.

THREE-QUARTERS PERSIAN MOROCCO—Handsome dark blue shade, generous leather corners and backs, with conventional gold-voiled marbled sides, gold top, silk head and foot bands, full gold band stamping, marbled inside cover linings, smooth trimmed front and bottom edges. This medium grade of binding is designed for general library purposes, and is very durable and rich in appearance.

FULL PERSIAN MOROCCO—This sumptuous full binding is done in Levant grain leather in a beautiful wine-color, and is very elegant and substantial. Full back stamping, hand finished in gold leaf of extra thickness. Heavy silk head and foot bands. Rolled gold inside cover design, with gold inside cover linings.

FULFILLMENT.

Just as the artist's ideal conception of a masterpiece demands in execution not only skill and knowledge, but enthusiasm and love of art, so the LODGE HISTORY OF NATIONS has called forth not alone the thought and wisdom of the best historians and skilled craftsmen, but also their zeal for the enduring perfection of their achievement. The value to the individual of such a great set of books, comprehending in brilliant, orderly array all the important events of human society in every age, can be appreciated only by careful personal examination of the volumes and personal knowledge of their manifold merits.
